

A Prayer

for
Students in

Eighth Grade

Lord,

I pray for students in the eighth grade today. Thank you that you have bright plans for them. Because of your unending love, your plans are for their good, and not for their harm. Help them to remain diligent in their school work as they transition into high school. Give them the strength and fortitude they need to stay focused and steadfast in their assignments, and to not give up in moments of difficulty. Thank you that you have a wonderful future for each of their lives.

Amen.
