

A Prayer

for

College Students

Lord,

I pray for college students in my community and around the nation. Thank you for their dedication and drive to understand more about the vast world you have created. Give them direction as they pursue fields of study that will enable them to choose viable careers in their future. Help them to continue to serve you with joy and gladness. Give them wisdom on their college campuses to make prudent decisions that will be a help and not a hindrance to the bright futures you have for them.

Amen.
